THE FEUERSTEIN METHOD IN THE CLINICAL FIELDS

Conference and Workshop

Are you a Feuerstein practitioner? Share your expertise in mediated learning, cognitive intervention, or learning potential assessment at our upcoming conference. Present case studies, research, or innovative techniques, and connect with an international network of practitioners.

New to Feuerstein? Discover how this methodology enhances cognitive and learning potential for individuals with ADHD, ASD, and learning disorders.

Join us on June 30-July 1 for the Conference and on July 2-4, 2025, for a Workshop on applying the Feuerstein method to ASD treatment, led by senior specialists from the Feuerstein Institute. Don't miss it!

Cost for Conference: 200 euro
Conference and ASD workshop: 500 euro.

FEUERSTEIN FOR PEOPLE WITH ASD

Workshop

Join us in Milan for a specialized workshop sharing decades of experience working with children and adults with ASD. This workshop is designed for mediators, including psychologists, teachers, speech therapists, and occupational therapists, and focuses on mediation techniques tailored to ASD populations, alongside the use of selected Instrumental Enrichment tasks.

The workshop program includes:

- Advantages of using a cognitive approach with individuals on the autism spectrum.
- Mediating the use of verbal concepts.
- Projection of virtual relationships.
- Mediation of reading and reading comprehension in ASD children.
- Mediation of mathematical reasoning: from task solution to problem comprehension.

Course fee: €350

Combined Conference and ASD Workshop fee: €500
